MyET

My English Tutor Speaking Training Program

MyET is an online speaking training platform with over 3 million registered users. The platform delivers more than 70,000 conversations containing 800,000 practical phrases and sentences in courses designed for all learners -- from children to adults. Currently, MyET provides courses for learners of English, Japanese and Chinese.

MyET analyzes spoken language and provides feedback and advice to help language students become more fluent and confident speakers. Alone, or in tandem with traditional books and e-learning programs, MyET allows learners to master their spoken language skills online!

Patents in 9 Countries

MyET's technology, the Automatic Speech Analysis System (ASAS®), is based on unique approaches to artificial intelligence, phonetics, and digital signal processing. ASAS is patented in 9 countries around the world.

International Team

Yi-Jing Lin, Ph.D.

Dr. Lin received his Ph.D. degree in Computer Science from Brown University in 1995 and worked for IBM T. J. Watson Research Center (USA), Compeq Manufacturing (Taiwan), and Trend Micro (Taiwan and Japan). Dr. Lin has also taught at National Taipei University of Education as an adjunct professor. He founded L Labs in 2002 and is now the CEO of L Labs.

Tony Brearley

Mr. Brearley has been involved in Education since beginning his career as a teacher of English as a foreign language and a teacher trainer in Japan in the early 1990s. It was during this time that he first became part of the Edvec team. He returned to the UK in 1998 and worked in the state education sector, first in primary schools and then in teaching young people with Special Educational Needs. Mr. Brearley returned to Edvec as a Senior Project Manager in 2018 and now leads Edvec's UK office.

Basil Tonks

Mr. Tonks has over 25 years of experience in language education in Asia. After studying Chinese history and language at the University of Toronto, he did graduate work in East Asian Studies and Japanese language at the University of British Columbia. Since coming to Asia in 1992, he has been active in the research, design, production, and sale of educational products and software throughout Asia and around the world.

Ryouichi Tanaka

Mr. Tanaka joined Benesse corporation in 1981. He became president of Benesse North America in 1990. After innovating new business models in the Japanese daycare industry in the mid-1990's, he assumed the position of vice president of Berlitz North America in 2000. In 2004, Mr. Tanaka became president of Berlitz Japan and was responsible for the launch of Global Tests of English Communication (GTEC) in Asia. Mr. Tanaka is now the CEO of Global Vision Inc.

MyET 4 Steps to Communicate with the World

Plan MyET's training method will enable you to make rapid progress in your language learning with just 10-15 minutes of study per day.

Do It is very difficult to master a language through reading and writing alone. Speaking is the best way to improve your foreign language ability.

Check MyET not only evaluates your pronunciation, pitch, timing, and emphasis, but also gives you detailed feedback on how to improve.

Act By continuing to train with MyET, you WILL acquire the ability to confidently speak in a foreign language.

Basic Functions of MyET

Pronunciation

MyET not only gives you a pronunciation score, but also guides you to better pronunciation. By mastering the basics of good pronunciation, it's easier to become a fluent English, Mandarin or Japanese speaker.

Pitch

Whether you are studying Chinese, English, or Japanese, MyET can accurately analyze your speech, syllable by syllable, and show you if your pitch is too high or too low.

Test Your Speaking Ability in Minutes

The MyET Speaking Proficiency Test (SPT) is an adaptive test of speaking ability. The SPT was developed in line with the theory developed for the Elicited Imitation Test designed by Ray Graham of Brigham Young University.

Instant Online Analysis

To train with MyET, all you need to do is listen to model sentences and imitate what you hear. MyET will instantly analyze your "Pronunciation," "Pitch," "Timing," and "Emphasis" and offer advice for improvement.

Emphasis

Misplaced stress can make your speech difficult to understand and may even change the meaning of what you say. MyET will warn you if you are placing accents on the wrong syllables.

Timing

The unfamiliar rhythm of a foreign language is often the main reason that foreign language learners sound strange to native speakers. MyET analyzes your speech and warns you when you are speaking in an unnatural way.

MyET Class Management

Mobile Learning with Cloud Management

Learners can access MyET courses on Windows PCs, iPhones, iPads, Android phones, Android pads, or Macs. All student data is stored on MyET's cloud servers so teachers or administrators can easily check their learners' progress and results.

Assign Homework and Tests in Seconds

Teachers can efficiently assign homework and tests using MyET's teacher's tools. Students can access their assignments by simply clicking on a link.

The LMS also allows teachers to review their students' grades or see a detailed report on any student. MyET's online teacher's tools make class management a breeze.

Track Progress and Create Online Learning Communities

Teachers can make announcements, add or delete students and even assign assistants to help manage their classes using the MyET Learning Management System (LMS).

The LMS allows teachers to easily keep track of their students' progress and results. Teachers can even establish online communities where students can interact with their peers.

Personalized Diagnostic Reports

MyET can statistically analyze each student's speaking performance to produce a speaking diagnostic report. The report indicates which vowels or consonants need improvement and identifies pitch, timing and emphasis problems.

MyET AI Classroom

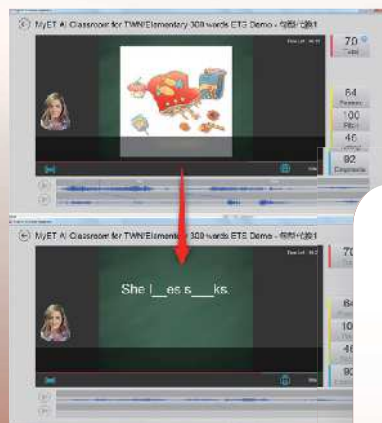

Language learning for the future

Using the most advanced artificial intelligence technology, AI Classroom's virtual instructors teach interactively. The instructor's expressions, gestures, and voice responses vary according to learner inputs, allowing students to learn in a more natural way.

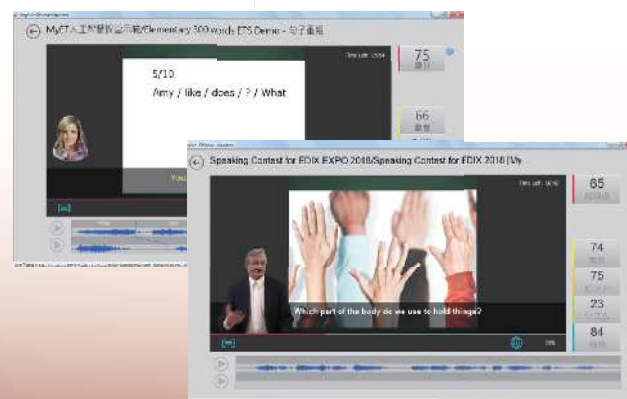

1. Your Digital Tutor

AI Classroom employs proven language teaching theories along with practical teaching strategies proven effective in the classroom. It's like having a tutor in your home.

2. Personalized Learning

AI Classroom customizes lessons to each student's ability and progress. Personalized study allows every learner to master course content effectively and achieve their learning objectives.

3. Interactive Lessons

AI Classroom lessons are interactive and learner-centered. Gone are the days of "one-way" online learning.

MyET Online Speaking Contests

Three Advantages of Online Speaking Contests

Teachers know that international competitions are a great way to increase learner motivation and create better learning outcomes. However, for many schools, the cost of holding or participating in an international contest is too high. MyET's online speaking contests break through the barriers of time and space to allow students from around the world to compete together on the Internet.

1. Immediate Results

Participants see their results immediately in a global ranking table.

2. More Language Practice

Learners can participate in a contest multiple times, leading to more language input/output practice.

3. More Chances to Participate

Whether it is midnight or 6 o'clock in the morning, whether participants are in Rio, Hanoi, Tokyo, or Beijing, anyone can join a contest by simply taking out their mobile device.
