Master Japanese through Video Lessons, Online Testing and Output Training

**What is the best way to study with Nihongo dojo?**

Although there are many ways to study with Nihongo dojo, we believe that using the program in the following order can make the learning process smoother. Please remember that video lessons can be replayed at any time to review important grammar points or key vocabulary items.

**What will I do in a Nihongo dojo lesson?**

Each unit of study in Nihongo dojo is composed of

- Video Lessons** • • • These lessons include detailed explanations of all vocabulary items and grammar points. At the beginner and lower-intermediate levels, video lessons are subtitled (currently available in English, Vietnamese, and Chinese).
- MyJT Training** • • • Using patented technology, you will intensively practice your Japanese listening and speaking using the vocabulary items and grammar patterns introduced in the video lessons.
- Online Check Tests** • • • Comprehensive online check tests are available to reinforce the acquisition of language introduced in the video lessons and practice your listening and reading skills.
- Downloadable Textbook** • • • The downloadable textbook contains all the language introduced in the video lessons as well as writing exercises. Textbooks are currently available in English, Vietnamese, and Chinese.

Video Lessons provide detailed explanations of new vocabulary items and grammar points in a lively, virtual classroom. Lessons show the downloadable textbook on a digital whiteboard, allowing the teacher to zoom in on critical grammar structures and important vocabulary items to help you focus on the key points of each lesson.

## Video Lessons

MyJT is a self-study app for practicing Japanese listening and speaking. For details, please see page 5.

## MyJT

There are 4 types of check tests: Vocabulary Tests, Grammar Tests, Vocabulary Listening Tests and Grammar Listening Tests. Check tests not only enable you to consolidate new knowledge, but also build skills that will be useful in real-world communication.

## Online Check Tests

The downloadable textbooks are fully illustrated and, at the beginner and lower-intermediate levels, translated into your first language to help you learn more effectively (currently available in English, Vietnamese, and Chinese).

## Downloadable Textbook

MyJT provides 3 training modes called Sentences, Role Play (\*1) and Self-Test, and 1 testing mode called Repeat.

あなたの子音【g】の発音はちょっとずれているようです。

発音の秘訣:  
口を大きく開き、舌根を上唇にあて鼻を止めた後、舌根を下ろし、力を込めて唇を突き出すとともに舌先を歯茎させて発音する。

発音の仕方:  
日本語の「ガ」行とは似ているが違う、発音する際は舌根を下に落し唇を破裂させる。

Click on the suggestion box for detailed pronunciation advice including short animated movies.

When there is a problem, MyJT will give you personalized advice to improve.

### Testing

In the Repeat or testing mode, you will test your pronunciation of the sentences from the lesson. Listen to the pronunciation model, wait for the microphone mark to appear on your screen and start speaking. Try to imitate the model pronunciation as closely as possible. The system will automatically move on to the next sentence once it judges that your pronunciation is clear enough for a native Japanese speaker to understand. When you finish, your average total score will be displayed. This score will be recorded as your final score for the lesson.
